

## JHA's "ISO 9001:2008" certification renewed.

The Japan Hydrographic Association (JHA) is pleased to announce that its "ISO 9001:2008" certification has been renewed for the next three years, based on the recent ISO 9001 renewal audit conducted in December 2010. The accreditation covers all the JHA sections responsible for reproduction and distribution of Japanese official charts and publications, including ENC, produced and published by the Japan Coast Guard (JCG). In achieving the ISO 9001:2008 certification, the JHA demonstrates its continuous commitment to delivering quality customer services which meet professional standards.
